**NEW from March 2017 on**

**NEW**

**EYE CARE Fluid**

Creamy eye lotion  
for daily skin care

## EYE CARE Fluid

The new EYE CARE Fluid is a creamy lotion for the daily care of the delicate skin around the eyes. It moisturizes the sensitive eye area intensively and is suitable for every skin type. Dry air and working on a computer can deprive the skin of the necessary moisture. The fluid supports the skin particularly when it is tired, dry and feels tight. Because of its light texture it sinks into the skin quickly and leaves a gentle and refreshed feeling. This is why the EYE CARE Fluid can be used as a make up base.

**Ingredients:** Aqua (Water), Prunus Amygdalus Dulcis (Sweet Almond) Oil<sup>°</sup>, Butyrospermum Parkii (Shea) Butter\*, Theobroma Cacao (Cocoa) Seed Butter\*, Rosa Canina Fruit Oil\*, Oenothera Biennis (Primrose) Seed Oil\*, Persea Gratissima (Avocado) Oil\*, Cetearyl Alcohol, Rosa Damascena (Rose) Flower Water<sup>°</sup>, Sambucus Nigra (Elder) Root Extract<sup>°</sup>, Magnolia Officinalis Bark Extract\*, Camellia Sinensis (Tea) Leaf Extract<sup>°</sup>, Cetyl Alcohol, Vitamin E, Spagyrische Essenz von Rosa Damascena (Rose) Flower Extract<sup>°</sup>, Gold, Silver, Sulfur.

<sup>°</sup>Demeter certified ingredient

\*certified organic ingredient

The new EYE CARE Fluid is packaged in a 30 ml opal glass bottle.

## Precious ingredients

The fluid contains mild avocado oil which smooths fine lines from dryness. Due to its moisturizing effect, it leaves the skin feeling relaxed. It is rich in vitamins (A, D, E) and strengthens the delicate eye area. The EYE CARE Fluid also contains cocoa butter which is particularly gentle on the skin and protects the sensitive skin from the cold and other environmental influences. It does not contain essential oils because they could irritate the sensitive eye area.

## Application

You can use the fluid throughout the day and as an ideal addition to your daily skin care. After cleansing and toning, put ½ pump of EYE CARE Fluid on your finger tip and apply it gently from inside to outside to the skin around your eyes. For those who wear eye make up, it is also an alternative to conventional eye make up removers. Put some EYE CARE Fluid on a slightly damp cotton pad and clean the area around the eyes from top to bottom several times.
